
Assessment and Support Provider Directory

Resources for Tessellations families

This directory brings together cognitive assessment providers and related learning, occupational therapy and family-support resources. Start with the service category that matches your needs.

Tessellations requires IQ assessments for TK and above. Before booking, confirm the timing, evaluator qualifications and report requirements for your child with Admissions. A provider's services or test-age ranges do not establish school policy.

[Admissions questions](#) | [Cognitive assessment information](#)

Listings are informational and do not imply endorsement or guarantee suitability, availability or acceptance of a particular report. Families arrange services directly with providers.

Cognitive and IQ testing

These practices publicly describe school-admissions or gifted-program cognitive testing. Confirm your child's age, the assessment offered and the report package when scheduling.

Bridges of the Mind Psychological Services

San Jose; other California offices

Offers cognitive testing for gifted-program placement, with broader psychological assessment available separately.

The practice lists WPPSI-IV for ages 2.5-7 and WISC-V for ages 6-16. Its cognitive-testing package includes a brief written summary, without a comprehensive evaluation or diagnostic impressions.

info@bridgesofthemind.com | [530-302-5791](tel:530-302-5791)

Children's Health Council

CHC Care Team | Palo Alto; confirm assessment location

Provides standalone IQ testing for private-school and gifted-program applications, as well as broader psychoeducational and neuropsychological evaluations.

The IQ service includes a brief report; a parent results conference is not included. Confirm the appropriate instrument, age eligibility and report requirements with the Care Team.

careteam@chconline.org | [650-688-3625](tel:650-688-3625)

Cognitive and IQ testing continued

Providers are listed alphabetically within this category. Details describe each practice, not Tessellations' acceptance criteria.

Juniper Psychology Group

Jennifer Kuhn, Ph.D. | Campbell

Offers children's IQ testing with the WPPSI-IV and WISC-V for educational planning and school admissions. The service includes a written report and parent feedback session.

Testing is in person. Juniper also provides broader child assessments, therapy and parenting guidance. Contact the testing team for age eligibility and scheduling.

testing@jpsygroup.com | [408-502-6532](tel:408-502-6532)

Little Seed Education Consulting

Frances Lai, Ed.S. | Cupertino

Provides cognitive/IQ testing for school admissions and gifted programs, plus psychoeducational assessments and educational consultation.

The practice serves children ages 3-18 and lists WPPSI-IV and WISC-V among its IQ services. Confirm the instrument and testing age directly. English and Mandarin consultation is available.

flai@littleseedpsych.com | [650-285-3365](tel:650-285-3365)

Mindboost Neuropsychological Services

Natalie P. Wager, Psy.D., ABPdN | Los Altos

Provides in-person cognitive/IQ assessments for private-school admissions, with experience in giftedness and twice-exceptionality. Neuropsychological, psychoeducational and developmental evaluations are also available.

Contact the practice to confirm age eligibility, test selection and the report package for your child's application.

[Website: www.mindboostservices.com](http://www.mindboostservices.com)

admin@mindboostservices.com

Sentir Therapy

Melina Foden, Psy.D. | Menlo Park

Offers in-person cognitive testing for private-school admissions using the WISC-V or WPPSI-IV, selected according to age and application requirements. The practice also offers therapy and parent coaching.

Sentir does not currently offer comprehensive psychoeducational evaluations. Confirm testing-age eligibility directly; its published therapy age range is 5-25.

[Website: www.sentirtherapy.com](http://www.sentirtherapy.com)

info@sentirtherapy.com | [408-320-8177](tel:408-320-8177)

Comprehensive assessment resources

These practices offer broader evaluations of learning, development or emotional functioning. Confirm whether their assessment scope matches your needs before scheduling.

Bay Area Neuropsychological and Developmental Services

Dr. Sangeeta Dey | BANDS | Palo Alto

Provides comprehensive neuropsychological and neurodevelopmental evaluations for children from infancy through young adulthood.

Ask BANDS whether a focused school-admissions IQ service is available, and which instruments and report options it offers.

[Website: www.bands-sf.com](http://www.bands-sf.com)

Drsdeysf@gmail.com | [669-232-2294](tel:669-232-2294)

Mindful LEP

Corrina Schader, MA, PPS, LEP | Campbell and Fresno

Offers comprehensive psychoeducational and giftedness evaluations, including assessment of cognitive strengths, learning patterns and emotional functioning. Consultation and advocacy support are also available.

Evaluations serve preschool through grade 12, with additional assessment for postsecondary accommodations. Confirm the instrument and school-admissions report package directly.

[Website: www.mindful-lep.com](http://www.mindful-lep.com)

info@mindful-lep.com | [408-797-5597](tel:408-797-5597)

The Pratt Center

Brendan Pratt, Ph.D. | Saratoga

Specializes in comprehensive psychological testing for students ages 7-22 with learning, attention, emotional or developmental concerns. Evaluation may include intelligence, academic skills, adaptive functioning and executive functioning.

Services can include interviews, school observation, record review, testing, feedback and school-meeting support. Contact the practice about broader evaluation needs rather than assuming a standalone admissions IQ package.

info@prattcenter.com

Choosing the right assessment scope

A brief cognitive assessment and a comprehensive evaluation answer different questions. Tell the provider why you are seeking testing and ask what the service includes. Ask Admissions whether the proposed report will meet the school's requirements before committing to an appointment.

Other support resources

The following services provide occupational therapy, educational guidance or parent support. They are separate from the cognitive-assessment providers above.

TheraPeeps

Brooke Olson, BS, OTR/L, BCP | Mountain View-based mobile practice

Provides pediatric occupational therapy for ages 0-8 at home, daycare, private school and outdoor settings. Services include OT evaluations, sensory and fine-motor support, feeding therapy, self-regulation, caregiver coaching and playgroups.

Serves Peninsula, South Bay and Santa Cruz County communities. Occupational therapy evaluation is distinct from psychological or admissions IQ testing.

info@therapeepsot.com | [650-204-0677](tel:650-204-0677)

Navigator of Giftedness

Deniz Baloglu | San Francisco Bay Area; local and virtual

Provides educational consultation for families and schools supporting gifted and twice-exceptional learners. Helps families interpret existing reports, explore school fit, plan enrichment and prepare for school conversations.

Focuses particularly on early childhood and elementary years. The practice does not provide psychological assessment, diagnosis or psychotherapy.

[Website: navigatorofgiftedness.com](https://navigatorofgiftedness.com) | [Contact form](#)

Parent Resource Advisors

Lauren Meltzer | San Francisco Bay Area

Offers parent coaching, consultation, workshops and personalized resource planning for families navigating learning, attention, executive-functioning, social and sensory differences, including giftedness and twice-exceptionality.

Supports families in finding schools, specialists and community resources. Contact the practice to discuss fit for your child's age and needs.

[Website: parentresourceadvisors.com](https://parentresourceadvisors.com)

pra4parents@gmail.com | [415-235-5798](tel:415-235-5798)

School selection and admissions support

These consultants help families explore schools and navigate applications. Their services do not replace an IQ assessment or establish a school's admissions decision.

Live Oak Educational Consulting

Natalie Crowley | San Francisco Bay Area

Provides one-to-one school-placement and admissions consulting for families applying to TK through grade 8. Supports school selection, applications, interviews, visits and enrollment planning.

Serves the East Bay, San Francisco, Peninsula, Marin County and South Bay, including families relocating to the region.

[Website: liveoakec.com](https://liveoakec.com) | [Contact form](#)

School First

Bay Area consultants include Melissa Bamberg and Sabina Aurilio | Bay Area; national and international services

Provides school-fit and admissions consulting from preschool through college, including school-list development, application guidance and enrollment support.

Contact the team to discuss the appropriate consultant and service for your family. This listing is for educational and admissions support, not clinical cognitive testing.

Before you book

- Confirm the provider's current services, professional credentials, age eligibility, location and available appointment dates.
- Ask which instrument will be used, what the written report contains, whether feedback is included and how results will be delivered securely.
- Confirm the total fee, payment terms and cancellation policy directly. Fees and appointment availability are not listed here because they can change.
- Check Tessellations' requirements and submission timing with Admissions before paying for an assessment. Discuss any previous testing, language considerations or accommodation needs with the provider.
